## About This Game

The story puts you in **James Sullivan's** shoes. A programmer at Red Zone 44 Security Inc. His main job at the company is to develop firewall algorithms to ensure the security of the clients servers. James is fascinated by numerology and has developed an obsession for various numbers and their meaning.

Due to his job, someone decides to change his life forever by forcing him to reconsider his priorities and the important things in his life. Play as James as you try to survive and return to your normal life as a changed person. But what if you can't? Is everything you accomplished gone forever?

This is a recreation of "biplanes", from many systems ,including the Atari 2600! Fun days. So ok indie developers like to hash some new life into old ideas(space invaders, pong, defender....call of duty :D) The point being they range from fun for a few days to absolute porkipine crap. This game offers no good graphics and the controls are a swine..it is unforgiving. It has that trackmania feel..you know? go as deep as you want for as long as you want? It is AMAZINGLY addictive..this is one of the few efforts to revive a game that would possibly recieve a "PERFECT" award. It has enough new ideas but it has not only held it's game play..now you have server full of people to ♥♥♥♥ you up!

the only downside for me was three play modes. after the novelty wore off..i found myself addicted to the football mode ONLY. good thing is there are fotball dedicated servers out there. This game could cost you hours of your life! (%90) - Hard to fault!. not good wont work it just looks at the ground

. Laggy controls that are hard to use because they change between the different minigames. Games are poor copies of popular free .io type games. Graphics suck. One of the minigames doesn't even have animation-- it looks like some kids school project.. Continues from where Gothic IV left off. Pretty good for more of a stand alone DLC. Only 3 - 4 hourd of game time, so the price is a little high for such little content.. It depends on how old you are and if you appreciate old school games likes this but I thought it was great! Inexpensive and great gameplay. It might feel like playing a win98 game but addicting like the rest in this genre. My only complaint is it is not OBS compatible so streaming it is kinda complicated. Need more video options!

Me IRL.

<https://www.youtube.com/watch?v=vFoEolYzLKc>. Actually enjoy it , just hate the fact that once you complete a stage you dont get the same huge reward if you complete it again.

Wish steam had an in between option.. Very slow paced, boring, stagnant and not fun. Refunded.. Great soundtrack, definitely worth it! If you want to support the musicians & developers, I would recommend purchasing this. Included formats are MP3 (265kbit/s) and FLAC (16bit).. Im really digging this demo of Mass Effect Andromeda

**On a more serious note, this is just another generic rpgmaker asset ridden game.**

I can understand that the intent for this game was to promote awareness for attention deficit disorder, but that doesnt cut it. Its supposed to be a game, but it feels more like some sort of psa drag.

And sweet moist Vishnu, crashes are so frequent that it makes me think im playing Princess Dianna Simulator

By the way, is it REALLY necessary to fill the screen the Autism awareness puzzle logo? We know we are playing an autism related game but i find it the usage of this icon as fx to be **OVERKILL**. Amazing love puzzles love decoding
